Penile Sheath

Don't let
your patients
come unstuck

Hollister

The Clear Choice...

The **InView** Silicone Penile Sheath is the clear choice for men with urinary incontinence, seeking a latex-free option that delivers both security and comfort.

Security

Trust InView Penile Sheaths to:

- **Be transparent**
Provides an easy way to help monitor skin health while the sheath is in place
- **Stay in place**
The skin friendly adhesive helps to minimise accidental detachment
- **Meet your specific needs**
Three styles and five sizes help ensure a proper fit
- **Fit most leg and night drainage bags**
The tapered tip helps ensure a secure connection

Comfort

InView Penile Sheaths feature:

- **Soft, breathable silicone**
Designed to be non-irritating and comfortable, and can be crimped for a custom fit
- **Gentle adhesive**
Balances secure fit with easy removal

The comprehensive range of **InView** Penile Sheaths

Standard

Regular length and adhesive for daily wear
Designed for safety and ease of use.

Extra

70% more adhesive than the standard sheath for added security
Has a wider adhesive area for individuals where extra security is required.

Special

Shorter sheath length for a wider range of needs
Specially designed for use with a retracted penis - a shorter sheath but with the same adhesive area as the standard sheath.

The **InView** Silicone Penile Sheath has been designed to be used in association with Hollister Leg bags and Night Drainage bags.

Hollister Leg Bags offer flexibility to suit a wide range of patient needs.

This discreet collection and removal solution complements an active lifestyle and blends user-friendly features with the optimum standards of hygiene.
