

# Urology Conference for Nurses

## Abstract Submission Guidelines

### Instructions for submitting an abstract for the plenary and poster sessions:

- a. Include the following information when submitting the abstract:
- Author's name
  - Names of co-authors
  - Designation/title
  - Employing organisation
  - Country of work
  - Contact information
  - Title of abstract
  - Preference for poster or plenary presentation
- b. Allocations of all abstracts for plenary and poster sessions are determined by the abstract review committee

### Abstract formatting and content:

- a. All entries must have a pre-submission abstract no greater than 300 words
- Abstracts exceeding this limit will be excluded

- b. Research-based abstracts should include the following:

- Introduction: state the objective / background of the study
- Design: describe the material and methods
- Results: summarise the results, presenting sufficient details to support the conclusions reached
- Conclusions

- c. Non-research-based abstracts should include the following:

- Background / problem
- Project description
- Project goals
- Evaluation / results
- Implications for nursing

### General rules:

- a. Abstracts should be checked carefully for accuracy prior to submission, as they are not edited by the organisers and author corrections will not be accepted after the final submission deadline
- b. Only registered nursing delegates may present abstracts

- c. If your abstract is accepted and you do not register for the conference within the appropriate timeframe, your abstract will be withdrawn
- d. The submitting author **MUST** be the presenting author
- e. Authors may submit more than one abstract
- f. Abstract presentation must be done in the English language

### Submission Deadlines:
